Topic I – GEOIDE Report and Paper		
<ul style="list-style-type: none"> Title: Plan Your Place: a geospatial cyber infrastructure for sustainable community planning 		
<ul style="list-style-type: none"> Paper is done to 66% 		
<ul style="list-style-type: none"> Awaiting the three subsections of the section "Technological state of the art" 		
<ul style="list-style-type: none"> "Existing participatory online GIS platforms" : is currently being written by Stefan & Andrew 	Monday Sept. 19	Andrew, Stefan
<ul style="list-style-type: none"> "Data infrastructures, web services and social network technologies" : Steve will meet with Stefan (4pm, today) for the content 	Monday Sept. 19	Steve, Stefan
<ul style="list-style-type: none"> "Assessment models ", Lina & Amer deliver their state of the art (on Transportation Models) to Stefan/Andrew by Monday, 19. Sept. (latest on Tuesday); if Beverly & Francisco have a state of the art on environmental assessment models & density calculations - that is envisioned for integration in the platform, then this goes into this section too. 	Monday Sept. 19	Lina, Amer, Bev, Francisco
Project status		
<ul style="list-style-type: none"> Issues with getting the (geo-)data from the city; The city is rolling out its new web platform, but contract is now finalized – just needs signatures - but it is difficult to reach people. 		
<ul style="list-style-type: none"> Andrew has met with Alderman Carra and is to meet with Alderman Pootmans; they are interested and are willing to help 		
<ul style="list-style-type: none"> Andrew and Coral met with the Glamorgan community and they are interested in working with us. They would like our assistance/opinion/guidance on the development of a vision for their community. Their current ARP is dated 1977 and was created for the multifamily housing along the west edge of Glamorgan. A proposal was presented to the board by Randy Martin and Barry Pendergast that

<p>would make 46 Ave SW from 37th through to 45 St the focus of the community with anchors at the entrance at 37th, and at the intersection of 46th Ave and 45 St (it is apparently the busiest intersection in the community). Their idea is to develop a more pleasing pedestrian environment, but it was not clear if it was to be mixed use as in a high street. They are very interested in the development of visualization tools.</p>		
<ul style="list-style-type: none"> Decision, that we should focus on Glamorgan as case study 		
<ul style="list-style-type: none"> Francisco outlined the mock-up images for case study development of road intersection (different land use types etc.) 		
<ul style="list-style-type: none"> Ideas for visualization of road intersection development (360 degree images/sketches of how it could look like - for mobile devices) : should now be focused on Glamorgan intersections 		
<ul style="list-style-type: none"> Francisco has a list of "tools"/functionality for the platform. Will email to Andrew 	Sept. 16	Francisco
<ul style="list-style-type: none"> Lina and Amer have been working on their review and are in the process of compiling their work into one document and final editing. 		
Further Meetings		
<ul style="list-style-type: none"> Meeting next week on web interface layout/design of the platform (start page) Andrew to arrange time/place 	Sept. 19	Andrew
<ul style="list-style-type: none"> October 25 does not work for next workshop, too many teaching conflicts. Possibly hold workshop on 27th October, 10am start, ca 3h : to update other stakeholders and interested parties 		
<ul style="list-style-type: none"> Hold group meeting ideally the day before, 4-6pm, for a brainstorming session on how we keep going 		
<ul style="list-style-type: none"> Neptis would like to attend, needs to be organized with Neptis - Marcy Burchfield. The following week may be better, researchers have fewer commitments then 	Sept. 20	Andrew
